

# FSA

Simple set up.  
Seamless implementation.  
Superior service.

A flexible spending account (FSA) helps participants save on out-of-pocket qualified medical, dental, and vision expenses, and/or qualified dependent care expenses.

FSA funds are contributed by your employees tax-free, which means significant potential tax savings and the ability to plan ahead for health care costs. Employers benefit too, with reduced employee payroll taxes.

## Outstanding support for you and your employees

We provide a dedicated team of account executives, customer service representatives, as well as complimentary training sessions to provide seamless administration and empower employees to take an active role in their health care spending decisions.

## Save time and enhance your benefit offering

An FSA plan administered by WEX Health, Inc., (WEX), is easy to implement and offers valuable benefits, including:

- › **Flexibility** — Offer FSAs with almost any group health plan and allow employees to carry over their unused FSA funds into the following plan year, up to IRS maximum.
- › **Reduced administration** — One debit card (with mobile pay technology), online account, and mobile app for participants to achieve a simplified benefits experience.
- › **Enhanced benefits package** — Added value to any benefits package, helping to attract and retain employees and empower them to make smart spending decisions.
